Bemidji Summer Tennis 2018

Elementary Program: Players will get a GREAT introduction to Bemidji Tennis! Our goal is to make this summer program a positive experience for every young athlete involved. We focus on every skill and experience level, which means players get a mixture of individual instruction, large group games, small group activities, and frequent competitions with and against their coaches!

Middle Level Program: The Middle School program maintains the same principle of providing a positive experience for every athlete, while adding an emphasis on further player development and competitive play. We will also be adding weekly tournament play.

Middle School "Aces": Following player evaluations during the first week of tennis, middle school players will have the option of participating in an additional competitive program in the evenings at Bemidji High School. This program will focus on preparing for tournament and competitive match play at the high school level. Multiple coaches will participate in the evaluations.

Director: Mark Fodness (Head Coach at BHS and BSU) **Youth Director:** Kyle Fodness (BMS Head Coach)
Assistant Coaches: Coaches at every level have considerable high school and collegiate playing experience, and their tremendous work allows us to keep a low player/coach ratio for drills, activities, and small group work in all of our sessions.
